

## Summer Independent Learning

Subject/Group	BTEC Foundation Diploma in Health and Social Care (Y11-Y12)
Topic	Human Lifespan Development
Timescale	9 hours
To be completed by	This work must be completed and handed in to your subject teacher on the first day of term.

### Background Information/Context

---

\*\*If you have difficulty in accessing IT resources to produce this work, you may complete it by hand, making sure you write clearly and neatly.

Task 1 –

Explain the 4 principles of Growth:

1.

2.

3.

4.

Produce a spider diagram, identifying the stages of attachments. Explain each stage including details of how children behave. Include the age for each type of attachment.

a. Read the following case study:

Eli is 20 months old. Identify suitable toys and resources that could be provided to encourage parallel play alongside his brother, Kiane who is 3 years old. Explain your choices.

Task 8 - Predictable and Unpredictable life events

Everyone experiences major events during their life. These can be predictable (something that is likely to happen to most people), or unpredictable (something that is not expected).

Using P.I.E.S, you need to create a mind map identifying predictable and unpredictable life events for each.

Make sure you have put your name on all sheets of paper.
